What's the difference?

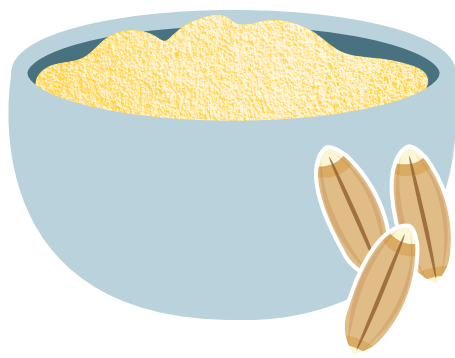

PASTA vs NOODLES

What is it made with?

Pasta is typically made from semolina using
Durum Wheat *(CWAD)*

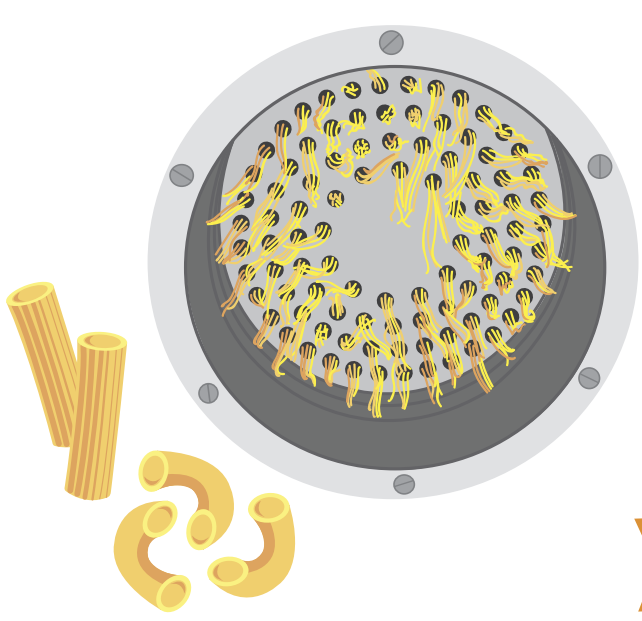

Noodles are made from flour using
Common Wheat *(CWRS, CPSR, CWRW)*

How is it made?

Pasta is processed into different shapes through
Extrusion

Noodles are rolled into flat sheets and
sent through a Cutter

How is it sold?

Pasta is primarily sold as a
dry product

Noodles are sold as
fresh, dried, parboiled, steamed, deep-fried products
