

Introducing Jupiter 6.0

ONE PLATFORM, ENDLESS OPPORTUNITIES.

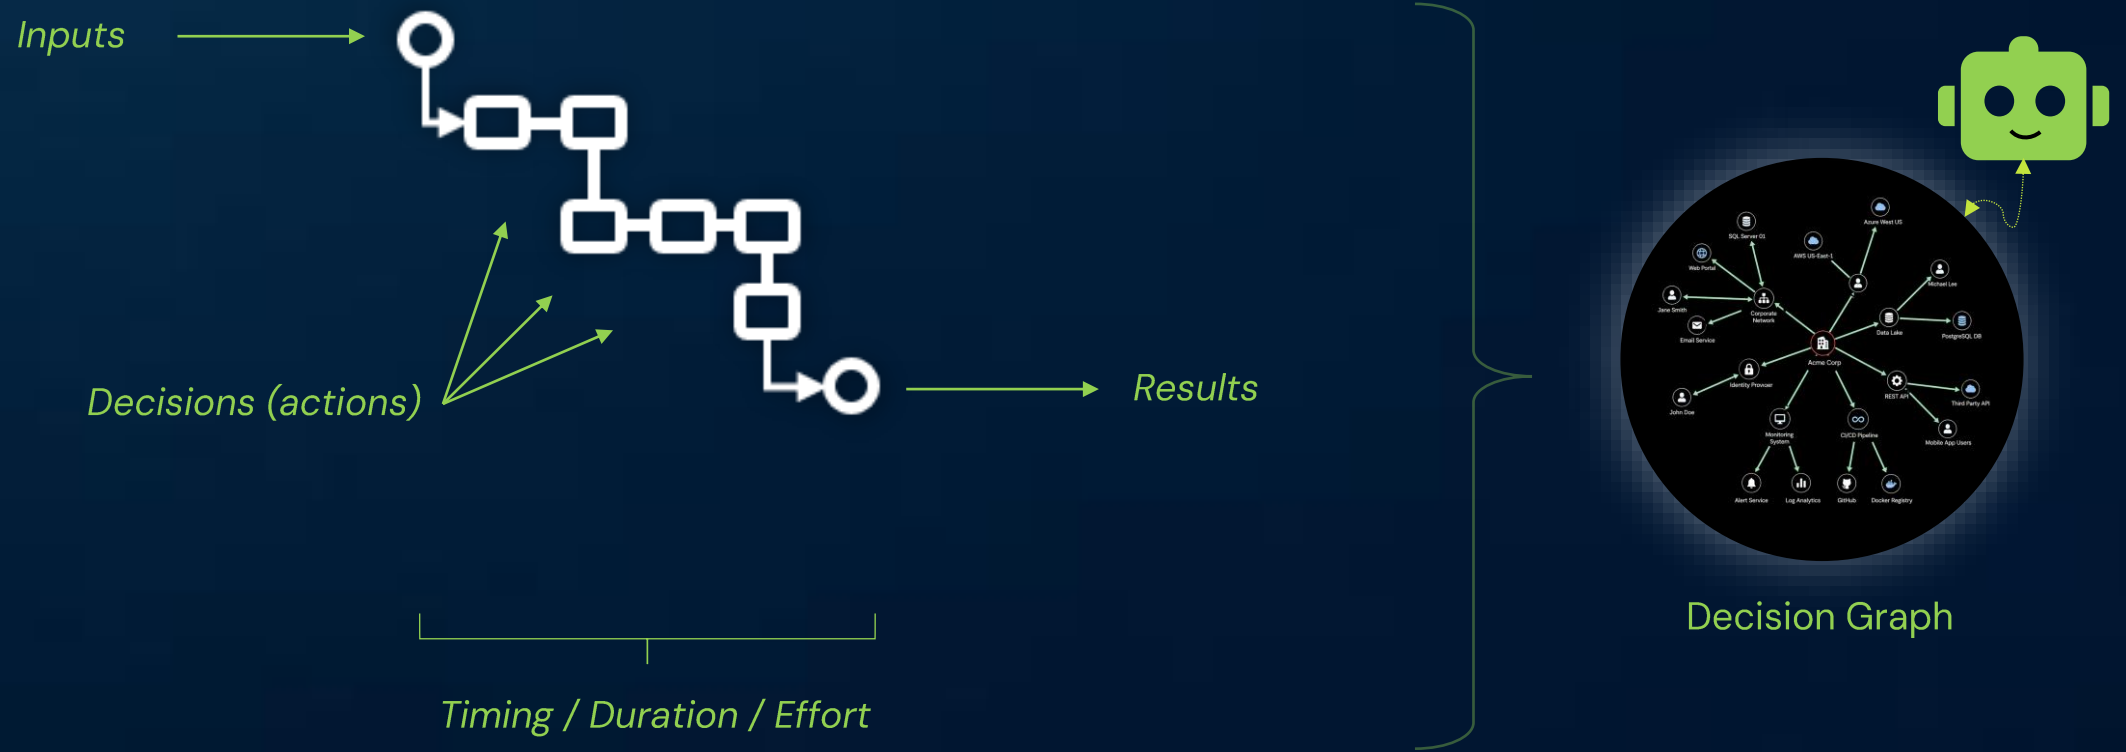

Dashboarding • Workflow • Graph Analytics • Agentic AI

How does AI learn from your **decisions** today?

Workflow captures the context behind your decisions

Operational AI

Agentic AI embedded within **human-in-the-loop** workflows designed to enhance productivity and reduce risk

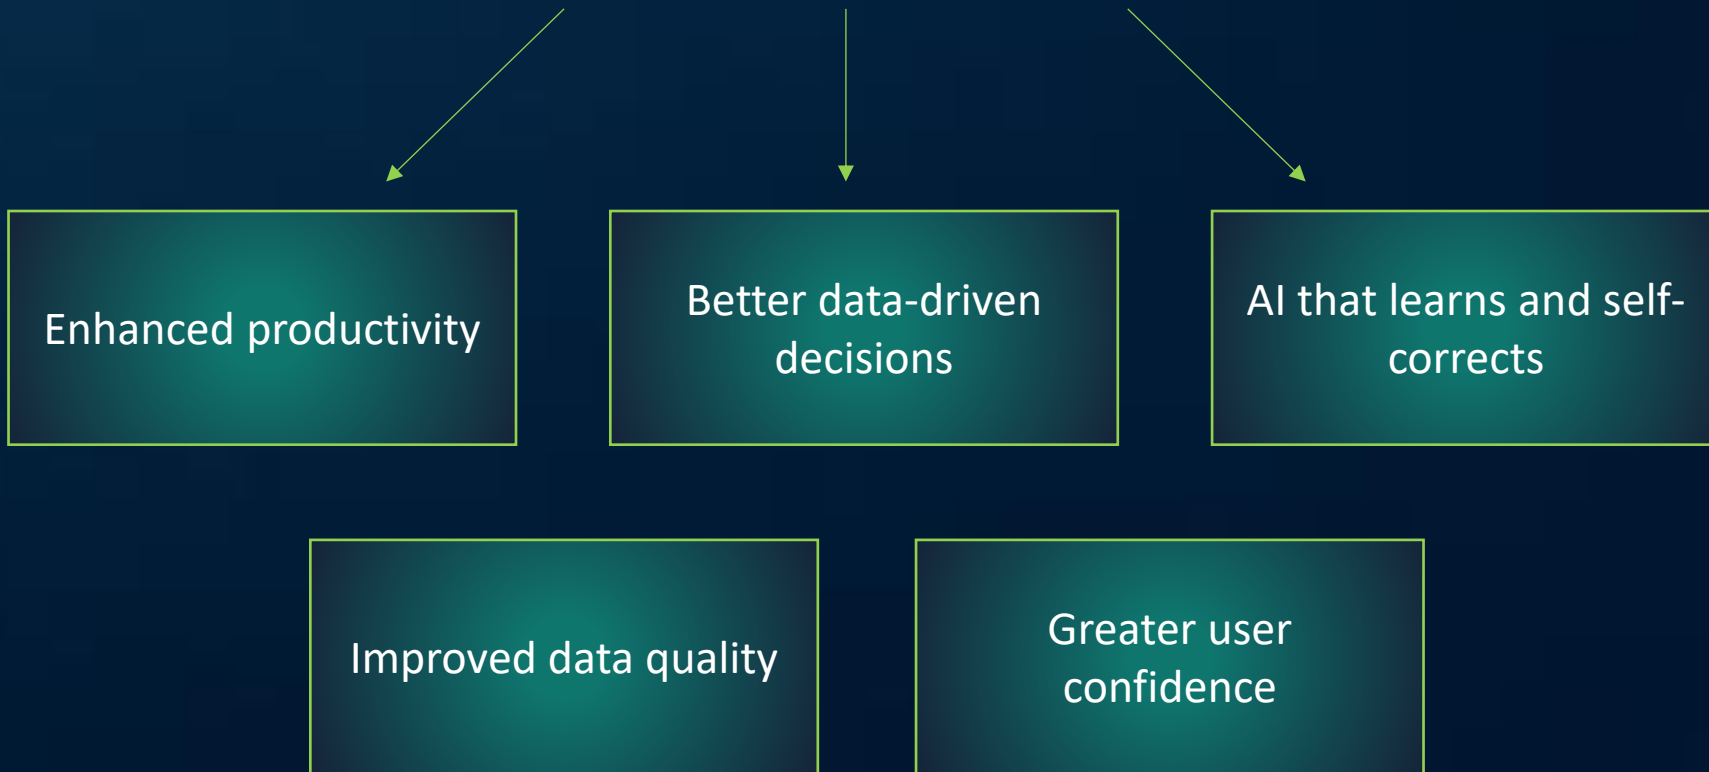

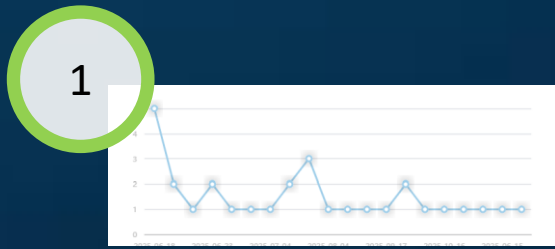

Your workflows will love AI!

Operational AI

Proactive, not reactive

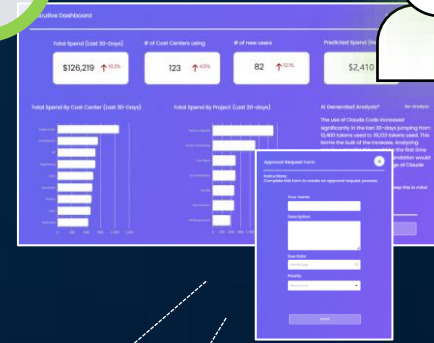

Discovers potential
stockout condition.
Triggers workflow

Triages alert and prioritizes response

Automatically delegates

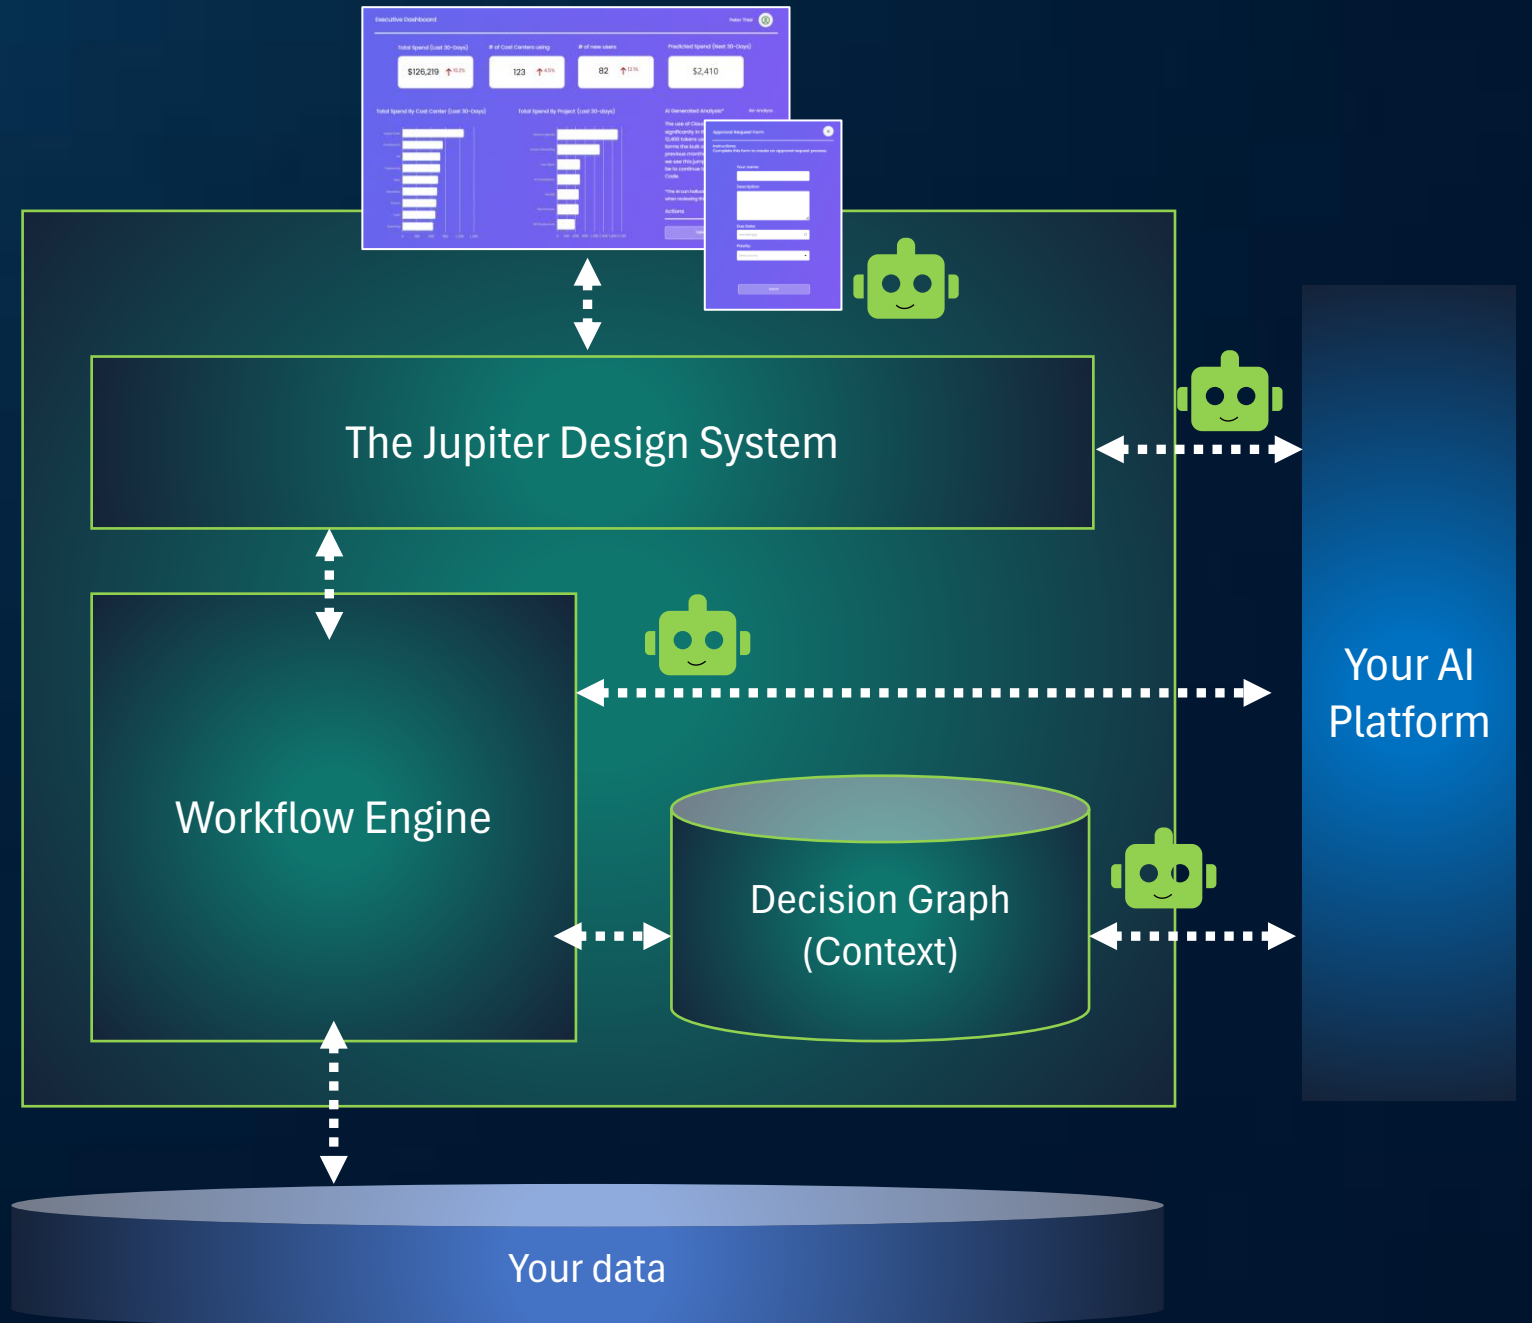

APPROVE?

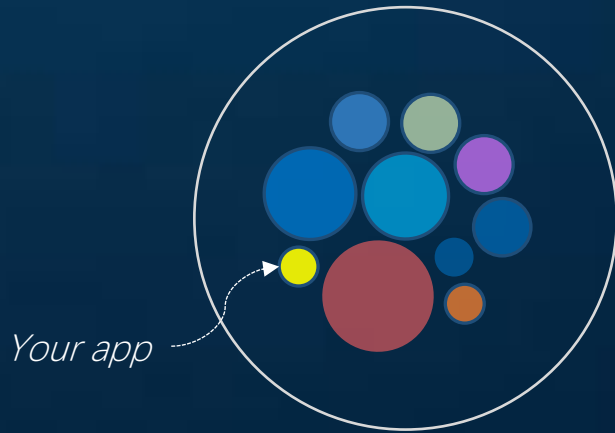

This action will allow the work order to proceed based on your authorization.

Deploy multiple enterprise-grade solutions, without writing code, powered by AI and managed in a single, transparent platform.

 Process Tempo

Build your app on Jupiter

Simple | Transparent | Controlled

Consistent | Complete

Vs.

Code a new application

Complex | Opaque | Fragmented

The "Wild, Wild West"

What will you build?

ONE PLATFORM. ENDLESS OPPORTUNITIES.
