Most MSSPs sell coverage. Your team still does the work.

MOST MSSPS

DITO

Raw alerts with no next step

A summary plus prioritized
containment steps

A bill that grows with log volume

Pricing you can forecast before
you sign

Rip and replace your tools

We can ingest the firewalls, EDR
and scanners you already own
(or help you streamline)

A staffing SLA

Acknowledge and contain
targets, in writing

THREE WAYS TO WORK TOGETHER

How much Dito owns

Tier 1

SOC augmentation

For teams with their own engineers who need 24/7 eyes.

DITO

Event monitoring, Tier 1 and Tier 2 analyst triage

YOU

Pipelines, parsing, rule tuning, forensics and IR

THREE WAYS TO WORK TOGETHER

How much Dito owns

Tier 2

Shared management

For teams that want expert guidance and keep final authority.

DITO

Advisory, sensor build
consultation, IR guidance

YOU

Technical execution and
decision authority

THREE WAYS TO WORK TOGETHER

How much Dito owns

Tier 3

Fully managed

For teams that need the SOC run for them, end to end.

DITO

Complete SOC operations,
including direct system and
network actions

YOU

Access and data
governance

over

360

agencies onboarded to a statewide SOC.

Sensitive, HIPAA and CJIS
environments

Custom Google Security
Operations SIEM and SOAR
tenants

24/7/365 monitoring, agentic AI in
daily operations

Every agency onboarding target
met
