WHY SUPPORT CACP CERTIFICATION?

BUILD VERIFIED CLINICAL EXPERTISE
Validates specialized antithrombotic knowledge against a defined professional standard.

STRENGTHEN CARE CONSISTENCY
Support appropriate medication selection and dosing, bleeding and thrombotic risks, improve patient education, and promote consistent practices across the organization

DEVELOP INTERNAL CLINICAL LEADERS
Build internal clinical leaders who can support protocols, staff education, clinical decisions, quality improvement, and stewardship

ADVANCE ORGANIZATIONAL QUALITY GOALS
Strengthen competency programs, clinical workflows, performance metrics, and identify opportunities to reduce preventable harm

SUPPORT ACE RECOGNITION
Maintaining an active CACP-certified clinician helps organizations meet an important requirement for the Antithrombotic Center of Excellence (ACE) recognition

ORGANIZATIONAL VALUE

FEWER ADVERSE EVENTS
With three common anticoagulants ranked high for risk, expert management helps reduce bleeding, thrombosis, and preventable ER visits.

LOWER TOTAL COST OF CARE
Better antithrombotic management reduces hospitalizations, readmissions, and costly complications

OPERATIONAL EFFICIENCY
Evidence-based protocols improve workflow efficiency, reduce practice variation, and support consistent delivery of high-quality care

STRONGER WORKFORCE
Higher engagement and retention reduce turnover costs and build organizational resilience

A FIVE-YEAR INVESTMENT IN YOUR TEAM
CACP certification is valid for five years, extending the value of your workforce education, quality initiatives, program growth, and leadership development.

RECOMMENDED EMPLOYER SUPPORT

- Cover certification and examination fees
- Provide access to preparation resources
- Offer protected study and examination time
- Recognize CACP within career ladders and job descriptions
- Promote initiatives for earning and maintaining certification
- Support recertification every five years

WHAT CACP HOLDERS REPORT*

94%
are satisfied with the overall certification and recertification experience

92%
likely or very likely to recommend CACP certification to a colleague

83%
plan to maintain their CACP credential through recertification

72%
received recognition for holding the CACP credential
